### Fruit Riddles

Riddle 1: I'm red with tiny seeds all over my outside. I am small (you could hold 4 or 5 of me in your hand) and I have green leaves that are on top of my head. I make a great jelly. What am I?

**[Strawberry]**

Riddle 2: I'm round and blue. I am very small – not much bigger than a pea, so I'm easy to pop in your mouth. I taste good when you add me to cereal or yogurt or baked into a muffin. What am I?

**[Blueberry]**

Riddle 3: I am hard and green on the outside but when you cut me open I am soft, juicy and pink on the inside. I taste great in the summer but watch out because sometimes I have lots of black seeds in me. What am I? **[Watermelon]**

Riddle 4: I am very tough and brown-colored on the outside, but when you cut me open I am juicy and yellow on the inside. Sometimes I come in a can and I can be round like a donut. Lots of people think of Hawaii when they think of me, and SpongeBob lives inside of me. What am I?

**[Pineapple]**
