

Let's Eat Healthy Community of Practice

2024

Food & Nutrition Trends for Educators and Health Professionals Webinar

May 2, 2024

1:00 P.M. to 2:30 P.M.PST

Description: This webinar will explore the current trends in nutrition from the publication *2024 Food & Nutrition Trends for Educators and Health Professionals* and provide opportunities for discussion.

Learning Objectives:

- Consider the implications of food and nutrition trends on education, healthcare, public health and other areas of health and nutrition.
- Delve further into the considerations on the use of artificial intelligence in education.
- Network to discuss applications of trends and strategies to address shifts in the environment.
